WHY SOLAR IN 2026

The Perfect Time to Switch

⚡ Rising Electricity Prices

Tariffs are climbing year-on-year. Solar locks in your energy cost for decades.

🏛️ Government Incentives

PM Surya Ghar Muft Bijli Yojana offers up to ₹78,000 in subsidies for residential systems.

📈 Fast ROI

With rising tariffs and subsidies, most systems pay for themselves in 3–5 years.

🌿 Eco-Friendly

Every kilowatt generated reduces India's carbon emissions and dependence on fossil fuels.

What Our Customers Gain

80%

Bill Savings

Customers save up to 80% on monthly electricity bills.

25+

Year Lifespan

Solar systems deliver clean energy for over 25 years.

3–5

Year Payback

Most systems recover their cost within 3 to 5 years.

₹78K

Max Subsidy

Government subsidy available for eligible residential installations.

Increased Property Value

Solar-equipped properties attract premium buyers and higher valuations.

Energy Independence

Generate your own power and reduce reliance on the grid.

Sustainable Future

Contribute to a cleaner India for future generations.
